Accossato è una azienda situata nel Nord dell'Italia che si occupa della produzione di ricambi ed accessori moto per il mercato aftermarket e che collabora con le maggiori case motociclistiche a livello mondiale realizzando prodotti su loro disegno.

Accossato è una azienda storica, nata nel 1969 su idea di Giovanni Accossato, come produttore di motociclette, nella loro storia le moto Accossato hanno vinto 1 campionato del mondo ,3 europei e 12 campionati italiani. Nell'anno della vittoria del campionato del mondo (1984) Accossato ha costruito le parti più importanti della moto come ad esempio la telaistica, ma anche il motore. Parallelamente alla produzione di motociclette, l'azienda ha iniziato a costruire componenti per moto fino poi a scegliere dopo la vittoria del mondiale di ritirarsi da vincitrice dedicandosi esclusivamente alla fornitura di particolari per le più importanti case motociclistiche mondiali.

La grande esperienza di oltre 50 anni ha concesso di avere una relazione diretta con l'azienda. Essendo un costruttore e non acquistando i prodotti all'estero Accossato è in grado in ogni momento di fornire assistenza tecnica a tutti i suoi Clienti. Acquistare un prodotto Accossato Made in Italy renderà l'esperienza di acquisto unica nel suo genere sia per quanto riguarda la qualità che il servizio offerto. Ogni anno Accossato protegge il proprio brand in tutto il mondo e realizza brevetti difendendo tutte le proprie invenzioni al meglio.

La nostra missione è fornire ai nostri Clienti di tutto il mondo il miglior prodotto come rapporto qualità/prezzo soprattutto per quanto riguarda la produzione degli impianti frenanti e diventare la vera alternativa al brand attuale in tutti i campionati sportivi nonché la MotoGP.

Accossato is a company located in Northern Italy focused on motorcycle spare parts and accessories for the aftermarket and we collaborate with the main global motorcycle producers and we realise products based on their designs.

Accossato is a historical company, founded in 1969 by Giovanni Accossato, as a motorcycle producer. Over the years, Accossato motorbikes have won a World championship, 3 European championships as well as 12 Italian championships.

In 1984 we won the World championship as well as we have designed the major parts of the motorcycle such as the frame building and the engine.

Together with the production of motorcycles, the company has started to manufacture spare parts. After its winning of the global championship we have decided to focus only on supplying components for the main global motorcycle producers.

During our over 50 years of expertise we have developed special skills in having a direct relationship with companies. We are a manufacturing company of motorcycle spare parts 100% made in Italy and we always provide technical assistance to our clients. Purchasing Accossato products is a unique experience that joins the high quality of our products and after-sales support.

Every year Accossato protects its brand worldwide and patents its name in order to fully protect its designs and inventions.

Our mission is to provide our clients worldwide products with the best quality / price ratio especially as regards the production of brake systems and to become the first and best option in all sports championships and MotoGP.

Prodotti da utilizzare in circuito chiuso

Tutti i prodotti di questo catalogo sono per uso agonistico e utilizzabili in circuito chiuso. il loro utilizzo su strade aperte al pubblico è vietato. il montaggio del prodotto deve essere effettuato da officine o rivenditori autorizzati accossato.

Esclusione di responsabilità

Accossato Racing oppure i suoi rivenditori saranno lieti di assistere i clienti nella scelta della fornitura esatta degli accessori di montaggio eventualmente necessari o delle varianti tra le parti adatte per la propria moto.

Accossato Racing si riserva il diritto, senza preavviso e senza fornirne i motivi, di modificare specifiche tecniche, colori, materiali, di cancellarli senza sostituirli o di interrompere la produzione di determinati prodotti. Tutti i dati sono forniti senza impegno fatti salvi i refusi, errori di stampa, di composizione e omissioni. Accossato Racing si riserva il diritto di apportare, in qualsiasi momento, le modifiche del caso. Accossato Racing declina qualsiasi responsabilità da problematiche intercorse di qualsiasi tipo in seguito all'acquisto di componenti sciolti tubi freno e successiva realizzazione del kit presso il Cliente.

Avvertenza

Non imitare! I motociclisti qui ritratti sono piloti professionisti. le fotografie sono state realizzate in circuiti chiusi o su strade chiuse al traffico. Accossato Racing invita tutti i motociclisti ad indossare l'abbigliamento prescritto e a guidare con coscienza nel rispetto delle relative disposizioni applicabili del codice della strada.

Alcuni articoli della gamma accossato racing possono non essere omologati per l'uso su strada (a seconda del paese). Per maggiori informazioni rivolgersi agli uffici commerciali accossato racing.

Products reserved for closed tracks

The products on this catalogue are intended for exclusive racing use and must be used on closed tracks. Their usage on public highways and roads is strictly forbidden. the assembling of the spare parts must be done by accossato authorized distributors and shops.

Exclusion of liability

Accossato racing or its distributors will be glad to help the customers choosing the exact and/or necessary spare parts for their own motorcycle. accossato racing reserves the right to modify/cancel without replacement technical specifications, colors, materials or to stop the production of some kind of products. The company will provide all the details with no obligation omissions, errors, misprints excepted. In any moment accossato racing reserves the right to modify any section of this catalogue. Accossato Racing declines any responsibility from issues occurred after purchasing loose parts brake hoses and the following realization of the kit by the Client.

Warning

Don't imitate! The racers in the pictures are professional racers. the pictures were be shoted in closed tracks.

Accossato racing invites all the racers to wear the correct clothing and to drive coscientiously in respect of the traffic laws.

Some products of accossato's selection can't be homologate to be used on the public highways (based on the rules of the different countries). For further information please contact Accossato Racing sales department.

■ Pompa freno CNC "GA" Ø 19 / "GA" Brake Master Cylinders Ø 19

Codice Reference	Descrizione Description
GA001	Pompa freno PRS 19x17-18-19 CNC CNC-worked PRS brake master cylinder 19x17-18-19

Descrizione Description

Appena terminata, dopo tanti anni di sviluppo, è destinata a rivoluzionare il concetto di frenata nelle pompe radiali racing

Just disegned, this new born of Accossato is bound to change forever the concept of brake in racing radial master cylinders

Caratteristiche tecniche Technical Specs

- Pompa radiale con pressione in contropinta / Radial master Cylinder working in counterthrust
- Esclusivo brevetto Accossato / Accossato exclusive patent
- Idraulica innovativa / Innovative hydraulics
- Aumento potenza frenante / Increased braking power
- Elevata modulabilità / High modular control
- Feeling Corsa a vuoto leva pressochè a zero / Spare travel feeling around zero
- Rilascio pressione su pastiglie fino a 10 volte più rapido rispetto a una pompa tradizionale / Pressure release on brake pads up to 10 times quicker than traditional master cylinders
- Autospurgante / self-bleed system
- Auto ricarica del fluido dei freni / Brake fluid self-refill

■ Pompe freno Ø 19 "Custom" attacco 1 pollice (25,4 mm) / "Custom" Brake master cylinders Ø 19 - 1 inch (25,4 mm)

POMPA FRENO POSTERIORE HRMC

HAND REAR BRAKE MASTER CYLINDER

La Pompa freno posteriore Accossato HRMC permette di attivare il freno posteriore con la mano sinistra, agevolando e correggendo l'ingresso in curva, al fine di modulare la frenata.

The rear Accossato HRMC master cylinder allows to start the rear brake with the left hand, easing and correcting the entry into the curve in order to modulate braking.'

FLUIDO FRENI

BRAKE FLUID

Accossato racing brake fluid DOT 4

Descrizione e applicazione

Description and application

Fluido freni a base sintetica da utilizzarsi nei circuiti idraulici sia di freni a disco che a tamburo. DOT 4 è idoneo per l'utilizzo nelle autovetture, nei veicoli industriali e commerciali, nelle moto e negli scooter. DOT 4, grazie al suo elevato punto di ebollizione, evita la formazione di bolle nel circuito frenante (Vapor Lock).

DOT 4, essendo dotato di un basso punto di scorrimento, garantisce una buona frenata anche a basse temperature. DOT 4, possedendo un'ottima compatibilità con le gomme e le guarnizioni dei circuiti frenanti, evita sia i rigonfiamenti che gli infragilimenti dei manicotti in gomma o della plastica delle tenute. DOT 4 protegge le parti metalliche che compongono il circuito frenante dalla ruggine, dall'ossidazione e dalla corrosione.

DOT 4 risponde alle seguenti specifiche : - SAE J 1703 D - DOT 4 - FMVSS 116 - ISO 4925

Accossato DOT 4 is a synthetic fluid which can be used both with disc and drum brakes. It is also suitable for cars, industrial and commercial vehicles, motorcycles and scooters. The elevated boiling point of DOT 4 avoids the "Vapor Lock" effect.

Its low pour point allows a performing braking even at low temperatures. DOT 4 is highly compatible with brake's gaskets and rubbers, thus avoiding any kind of swelling or embrittlement. It protects metallic parts from rust, oxidation and corrosion.

DOT 4 meets the following specifications: SAE J 1703 D – DOT 4 – FMVSS 116 – ISO 4925

Caratteristiche

Details

Aspetto / Aspect: Limpido / Limpid

Colore/Colour: Da giallo chiaro ad ambrato / from light yellow to amber

Accossato racing brake fluid DOT 5.1

Descrizione e applicazione

Description and application

Fluido speciale, totalmente sintetico, da utilizzarsi nei circuiti idraulici sia di freni a disco che a tamburo. DOT 5.1 può essere utilizzato in assoluta sicurezza sia nella guida estremamente sportiva che nelle competizioni, vista la sua elevata stabilità alle alte temperature. Nel caso di utilizzo a temperature elevate, il suo elevatissimo punto di ebollizione evita la formazione di bolle nel circuito frenante. Il fatto che il prodotto si mantenga fluido anche a basse temperature garantisce una buona frenata anche in climi particolarmente rigidi. DOT 5.1, essendo un olio freni ad alto punto di ebollizione, può essere utilizzato anche quando, a causa di azioni frenanti particolarmente spinte e/o prolungate, nei circuiti frenanti si raggiungono temperature particolarmente elevate.

DOT 5.1 non provoca particolari rigonfiamenti delle gomme di tenuta degli impianti frenanti e non agredisce i metalli che compongono l'impianto. DOT 5.1 ha buone proprietà sia lubrificanti che antiusura che garantiscono un buon funzionamento degli organi presenti nei circuiti e diminuiscono l'usura delle parti in movimento. La sua elevata stabilità chimica fa sì che il prodotto non subisca particolari alterazioni anche se sottoposto all'effetto di sollecitazioni termiche particolarmente elevate.

DOT 5.1 risponde alle seguenti specifiche :

- SAE J 1703 - DOT 5.1 - DOT 4 - DOT 3 - US FMVSS 571.116

Special synthetic fluid which can be used both with disc and drum brakes. Due to its elevated stability at high temperatures, it is suitable for competitions as well as for sporty driving. Its very elevated boiling point avoids the "Vapour Lock" effect. Maintaining its fluidity even at low temperatures, it guarantees a performing braking even in extremely cold conditions. DOT 5.1 has a very high boiling point, therefore it can be used in case of prolonged or late braking, when the braking system reaches high temperatures.

DOT 5.1 does not cause the swelling of brake's rubbers and does not damage its metallic components. Its lubricating and antiwear properties guarantee a good functioning brake's part and diminish the wearing of moving components. The elevated chemical stability of DOT 5.1 oil guarantees the absence of any alteration in case of extreme temperatures.

DOT 5.1 meets the following specifications:

SAE J 1703 D - DOT 4 - DOT 5.1 - US FMVSS 571.116 - ISO 4925

Caratteristiche

Details

Aspetto / Aspect: Limpido / Limpid

Colore/Colour: Paglierino / Straw-coloured

Peso specifico a 15°C ASTM D 1298: 1,00 - 1,09 Kg /dm³

Punto di ebollizione a secco / Boiling Point (dry): Min. 275 °C

Punto di ebollizione a umido / Boiling Point (wet): Min. 185 °C

Note: Si consiglia di rimuovere dall'impianto frenante dopo l'utilizzo in pista e sostituirlo con il fluido DOT4

Note: We recommend to remove from the brake system after using on track and replace it with DOT4 brake fluid

Accossato racing brake fluid DOT 6

Descrizione e applicazione

Description and application

Fluido speciale Per tutti i tipi di impianti idraulici di freni e frizioni che richiedano un fluido non silconico. Sviluppato per resistere alle temperature estreme generate nei freni da competizione ceramici o in carbonio, permettendo un flusso di aria per il raffreddamento minore. Può essere utilizzato anche con dischi in acciaio convenzionali. Supera le richieste degli standard DOT 3, DOT 4 e DOT 5.1. La viscosità simile a quella del DOT 4 permette, a temperature alte di esercizio, una viscosità ottimale mantenendo i tempi di frenata anche per lunghi periodi.

DOT 6 RACING ha un elevato punto di ebollizione (almeno +315°C), superiore ai fluidi convenzionali DOT 5.1

(260°C min.) e DOT 4 (230°C min.). Evita il fenomeno del "vapour lock" (presenza di bolle di vapore nel circuito freni), Wet Boiling Point 204°C min, superiore ai fluidi freni convenzionali DOT 5.1 non silconici (180°C min.)

e DOT 4 (155°C min.), permette un livello di frenata efficiente anche in condizioni di umidità.

DOT 6 RACING possiede ottime proprietà anti-corrosione, ruggine ed ossidazione per la protezione dei componenti metallici e non costituenti il circuito di frenata. Totale compatibilità con gomme e guarnizioni per evitare rigonfiamenti o fragilità dei manicotti in gomma o plastica e delle tenute. Elevata stabilità chimica per garantire l'inalterabilità nelle condizioni più severe di sollecitazione termica. Può essere utilizzato in macchinario di ogni marca, tipo e potenza.

DOT 6 RACING è pronto all'uso. E' un liquido freni a base sintetica, miscibile con tutti i liquidi freni della stessa tipologia.

NON MISCIBILE CON LIQUIDI FRENI A BASE SILCONICA O CON FLUIDI MINERALI (LHM).

Special fluid for all kinds of hydraulic system of brakes and clutches requiring a non-silicone oil. It was developed to resist at extreme temperatures, which are usually reached in competition brakes made of ceramic or carbon, by diminishing the airflow for heat reduction. It can be also used with conventional steel discs. It meets standard specifications for DOT 3, DOT 4 and DOT 5.1. Its viscosity, alike DOT 4, allows it to resist at high temperatures, reaching an optimal viscosity during prolonged braking.

DOT 6 Racing has an elevated boiling point (Min. +315°). It avoids the "Vapor Lock" effect and allows a performing braking in case of elevated humidity. Its high chemical stability guarantees inalterability in the harshest thermic sollicitations. It can be used in vehicles and machineries of every brand and typology.

DOT 6 is ready to be used. It can be mixed with every brake fluid of the same typology.

IT CANNOT BE MIXED WITH SILICONE-BASED BRAKE FLUIDS OR WITH MINERAL FLUIDS (LHM).

Caratteristiche

Details

Aspetto / Aspect: Limpido / Limpid

Colore/Colour: Tipico / Usual

Peso specifico a 15°C: ASTM D 1298 1,010 – 1,090 Kg /dm³

Equilibrium Reflex Boiling Point: ASTM D 92 Min. 315 °C

Punto di ebollizione a umido / Boiling Point (wet E.R.B.P.): ASTM D 97 Min. 204 °C

Viscosità (mm²/s) a -40°C / Viscosity (mm²/s) at -40°C: 1800 mm²/s

Viscosità (mm²/s) a +100°C / Viscosity (mm²/s) at +100°C: 2,8 mm²/s

pH : 8 – 9

pH dopo corrosione / pH after corrosion: 7,2 – 8,2

Comportamento nei confronti dei particolari in gomma: Rigonfiamento Gomma SBR a 70 °C

RA003

RA004

Codice Reference	Descrizione Description	Opzioni supporto Holder options
RA003	Controllo remoto integrato dritto, per pompe Accossato e radiali Brembo <i>Integrated straight remote adjuster, for Accossato and Brembo radial master cylinders</i>	35 mm
RA004	Controllo remoto integrato a 90° per pompe Accossato, equivalente del codice Brembo X9849B0 <i>Integrated 90° remote adjuster for Accossato master cylinders, comparable of Brembo code X9849B0</i>	60 mm

■ Ricambi supporto / Spare-part holder

Codice Reference	Descrizione Description	Altezza Available height
RS001	Ricambio supporto corto <i>Short spare-part holder</i>	35 mm
RS002	Ricambio supporto lungo <i>Long spare-part holder</i>	60 mm

Codice Reference	Descrizione Description
RS005	Ricambio perno fissaggio controllo remoto per RA003 / <i>Spare-part connection pin RA003</i>
RS006	Ricambio guaina controllo remoto per RA003 e RA004 / <i>Spare-part plastic tubing for RA003 & RA004</i>
RS007	Ricambio Guaina con filo per RA001 e RA002 / <i>Spare-part plastic tubing+metal wire for RA001 & RA002</i>
RS008	Ricambio Guaina con filo per LV007 / <i>Spare-part plastic tubing+metal wire for LV007</i>
RS009	Ricambio Guaina con filo per LV021 - LV022 / <i>Spare-part plastic tubing+metal wire for LV021 - LV022</i>
RS010	Ricambio Guaina con filo per RA003 / <i>Spare-part plastic tubing+metal wire for RA003</i>

LM002	Leva freno a controllo elettronico per pompe Accossato e Brembo (no RCS) <i>Brake lever with electronic control, for Accossato and Brembo master cylinders (no RCS)</i>	N ● nero - black

Spiegazione
Explanation

Dispositivo brevettato accossato. le leve tradizionali col pomello di regolazione manuale risultano tutt'altro che semplici da regolare sul rettilineo, a 300km/h. con le leve a controllo elettronico invece, è sufficiente agire sui 2 pulsanti, per ottenere una regolazione semplice e perfetta per le esigenze di ogni pilota.

Device patented by Accossato. Traditional levers have manual adjusting knob: not that easy for the driver to adjust, when riding at 300Km/h. On the contrary, with electronic-control levers adjustment is only about pushing the 2 installed buttons: easy and fast. Perfect for all tastes.

Leva freno per pompe Brembo RCS

Codice Reference	Descrizione Description
SR001	Sgancio rapido per comando gas Accossato Quick disconnecter for Accossato throttle control

Lunghezze L1 disponibili
Available L1 length

111 mm • 131 mm • 151 mm • 486 mm • Universali / Universal

Vantaggi
Pros

- Riduce i tempi di sostituzione del comando gas
- Non richiede interventi sul motore
- Non necessita regolazione cavi
- Time reduction in throttle control replacement
- No need to act onto the engine
- No need for cable adjustment

Spiegazione
Explanation

Il dispositivo nasce pensando alle esigenze del mondo delle competizioni motociclistiche, in cui l'eventuale rottura del comando gas (ad esempio in seguito a caduta) comporta la perdita di un turno di prove a causa del lungo e delicato lavoro di sostituzione dei cavi. L'utente potrà montare e registrare il dispositivo, avendo cura di posizionare lo sdoppiatore in zona accessibile ma protetta dagli urti, procedendo al di fuori del clima caotico delle gare, con calma e perizia. Fornitosi di uno o più kit lato acceleratore di ricambio, in caso di necessità, potrà sostituirlo con un altro semplicemente svitando una vite e senza dover toccare alcun registro di tensionamento. Il lato motore viene fornito di cavi universali, mentre per il lato acceleratore è possibile scegliere la lunghezza dei cavi.

This device was created to fulfil at best the need for speed in 2-wheel competition world. In case of any brakages of throttle control (i.e. due to a fall), time-taking cable replacement would mean to miss a turn during testing. Assemble and adjust the device carefully, by putting the splitter into a position easy to reach, but sheltered from impacts. By necessity, quick disconnecter allows you to replace throttle control by simply unscrewing the specific screw. No need to act on tentioning adjuster. Engine side is provided with universal cables, whilst for gas control side cables are available in several lengths

PINZE FRENO INTERASSE 108

BRAKE CALIPER DISTANCE 108

■ Pinza freno CNC monoblocco / Monoblock CNC-worked brake caliper

Codice Reference	Caratteristiche tecniche Technical details
PZ001	Interasse / Distance: 108 mm
	Off-set: 22,5 mm
	Pistoncini titanio autoventilati D34mm (n°4) / Small pistons titanium-made, self-ventilated, D34mm (4pcs)
	Guarnizione Parapolvere / Dust seal: NO
	Colore / Color: Cromato / Chrome - Ossidata nera / Black oxidation - Ossido duro / Hard oxidation
	Pastiglie non incluse / Brake pads not included
	N° pastiglie x pinza 4 pz / N° of brake pads per caliper 4pcs
Pinza singola (dx oppure sx) / Single brake caliper (L or R)	

■ Accessori di ricambio (venduti singolarmente) / Spare parts (sold individually)

Codice Reference	Descrizione Description
AGPA134ZXC	Pastiglie freno mescola racing ZXC (4 pz x blister) / Brake pad ZXC racing compound (4pcs x blister) *
AGPA134EV2	Pastiglie freno mescola racing EV2 (2 pz x blister) / Brake pad EV2 racing compound (2pcs x blister) **
PT034	Pistone autoventilato in titanio, Ø34 / Self-ventilated piston, made in aluminium, Ø34
UP034	Guarnizione pistone Ø34 / Ø34 piston seal
AGPET	Perno in titanio / Titanium pin
AGM01	Molla anti-vibrazioni / Anti-rattle spring
AGFS	Fermo di sicurezza / Safety catch
RC012	Valvola di spurgo M8x1 / Bleeding valve M8x1

Note / Note:

* ZXC: mescola in carbon-ceramica, necessitano pre-riscaldamento / Carbon-pottery compound, warm-up needed

** EV2: Top racing, necessitano pre-riscaldamento, sconsigliate per dischi "Wave" e "Butterfly" / Top racing, warm-up needed, not recommended for "wave" and "butterfly" brake rotor

Modello Model

Questo kit realizzato interamente in CNC permette la trasformazione delle pinze freno originali, da assiali a radiali. La modifica dell'impianto frenante migliorerà la potenza di frenata della vostra moto, rendendola più decisa e sicura. N.B. Potrebbe essere necessaria la modifica delle tubazioni originali.

Totally CNC-worked, this kit allows the transformation of original brake calipers from axial into radial ones. By modifying your braking system, you will certainly improve the grip. N.B. modifications onto original brake lines might be necessary.

DE009	Paraleva Accossato dx tubo in carbonio + terminale sx Accossato right handguard, carbon hose + left end	Tubo dritto / Tubo piegato a 90° Straight hose / 90° bent hose
DE010	Paraleva Accossato sx tubo in carbonio + terminale dx Accossato left handguard, carbon hose + right end	Tubo dritto / Tubo piegato a 90° Straight hose / 90° bent hose
DE011	Paraleva destro Accossato, "Ultra Light" realizzato in carbonio Accossato "Ultra Light" right handguard, carbon-made	
DE012	Paraleva sinistro Accossato, "Ultra Light" realizzato in carbonio Accossato "Ultra Light" left handguard, carbon-made	
DE013	Paraleva Accossato Dx+SX, "Ultra light" realizzato in carbonio Accossato "Ultra Light" right/left handguard, carbon-made	

Spiegazione Explanation

Il paraleva "Deflector" è stato studiato per garantire la massima sicurezza dei piloti durante le gare. Deflector protegge la leva freno e frizione, da qualsiasi contatto accidentale con altri veicoli. La ricercatezza nello sviluppo ha permesso di ridurre al minimo l'incidenza aerodinamica. Il paraleva "Deflector" può essere regolato in lunghezza e lateralmente, attraverso adattatori. Compatibile per tutti i manubri con diametro interno da 12 a 20 mm.

The "Deflector" handguard was designed to guarantee the total safety for the racers during the races. Deflector safeguard the clutch lever and the brake one from any kind of dangerous contact with other vehicles. The research during the planning of this product led up to the reduction of the aerodynamics incidence. The "Deflector" handguard can be extend laterally and in lenght by adaptors, Deflector is suitable for any handlebar from 12 to 20 mm.

Codice <i>Reference</i>	Descrizione <i>Description</i>	Ø	Applicativo <i>Suitable for</i>
CP005	Semi-manubri rialzati regolabili <i>Adjustable raised clip-on</i>	41 mm	Universali-adattabili per forcelle Ø 41 mm <i>Universal-adjustable for Ø 41 mm-forks</i>
CP006	Semi-manubri rialzati regolabili <i>Adjustable raised clip-on</i>	46 mm	Universali-adattabili per forcelle Ø 46 mm <i>Universal-adjustable for Ø 46 mm-forks</i>

Spiegazione
Explanation

- Realizzati in alluminio forgiato
- Consentono di regolare l'altezza della posizione di guida originale, assecondando le esigenze del pilota
- Aluminium-forged
- They allow to adjust the length of original driving position, according to drivers' needs

MANOPOLE RISCALDATE

WARMED-UP GRIPS

Codice Reference	Descrizione Description	Caratteristiche tecniche Technical details
GR005	Manopole riscaldate Warming-up grips	Lunghezza / Length: 123 mm Diametro / Ø: 22 mm Peso netto / Net weight: 221 gr Tensione d'alimentazione / Electric tension: 12V Potenza riscaldante / Rated heat: max 24 w

Colore / Color

N ●
nero - black

Spiegazione
Explanation

- Standard di qualità superiore
- Facili da installare
- Dispositivo di protezione anti-inversione di polarità integrato: in caso di collegamento errato, la centralina non subisce danni
- Regolazione di temperatura in 4 posizioni integrata alla manopola
- Centralina di regolazione separata: in caso di sostituzione, non occorre smontare le manopole
- Manopole in gomma con disegno anti-scivolo
- Guaina in calza trecciata per la protezione dei cablaggi elettrici

- High-quality standard
- Easy to assemble
- Anti-polarity inversion device integrated: in case of wrong connection, control unit won't undergo any damages
- 4-position heat adjuster integrated to grip
- Separated control unit: replaceable without grips dismantling
- Rubber-coated grips, with non-slip pattern
- Sheath in braided sock for the protection of electrical wiring

Manopole vendute a coppie / Grips sold in pairs

G 
verde - green

Spiegazione Explanation

Il cavalletto anteriore smontabile Accossato consente di ridurre l'ingombro durante il trasporto. Realizzato in alluminio, è disponibile in diverse colorazioni. Il cavalletto è venduto con il supporto a cono, che lo rende adatto a tutte le moto che richiedono il sollevamento da sotto gli steli della moto.

Accossato front decomposable stand allows to reduce volume at minimum to ease carriage at best. Made in aluminium, front part is available in several colours. Stand is supplied with its "cone-shaped" supports. Provided with supports, stand width becomes adjustable it could be used on any motorcycles requiring lifting from underneath the fork stem.

Spiegazione Explanation

I cavalletti posteriori smontabili Accossato consentono di ridurre l'ingombro durante il trasporto. Realizzati in alluminio, sono disponibili in diverse colorazioni. I cavalletti sono venduti con il supporto in gomma a "L" oppure a "V", adatti a qualsiasi moto stradale o da turismo.

Accossato front decomposable stands allow to reduce volume at minimum to ease carriage at best. Made in aluminium, front parts are available in several colours. Stands are supplied with specific brackets, either "L-shaped" (AV001) or with "V-shaped" (AV002) ones, suitable for any on-road & tourism motorcycles.

Codice Reference	Descrizione Description	Caratteristiche tecniche Technical details
MR001	Specchietto retrovisore universale per moto stradali Universal rear-view mirror for on-road motorcycles	Dimensioni/Dimension: 110x58 mm M10x1,25 Adattatori inclusi/Adapter included: M8x1,25 Non omologato / Not homologates

Colori / Colours

N ●
nero - black

Codice Reference	Descrizione Description	Caratteristiche tecniche Technical details
MR002	Specchietto retrovisore CNC Accossato con indicatore di direzione integrato Accossato CNC-worked rear-view mirror with integrated direction indicator	Dimensioni/Dimension: 134x80 mm M10x1,25 Adattatori/Adapter: M10x1,25 SX + M8x1,25 + M8x1,25 SX Superficie riflettente/Reflective surface: Azzurrata/Blue-tinted mirror Tipo luce/Light type: Led Non omologato / Not homologates

Colori / Colours

N ●
nero - black

Codice Reference	Descrizione Description	Caratteristiche tecniche Technical details
MR003	Specchietto retrovisore CNC con inserti colorati Accossato CNC-worked rear-view mirror with integrated coloured insert	Dimensioni/Dimension: 134x80 mm M10x1,25 Adattatori/Adapter: M10x1,25 SX + M8x1,25 + M8x1,25 SX Superficie riflettente/Reflective surface: Azzurrata/Blue-tinted mirror Inserti/Insets: CNC / CNC Worked Non omologato / Not homologates

Colori / Colours

N ●
nero - black

Y ●
oro - gold

B ●
blu - blue

R ●
rosso - red

S ●
argento - silver

G ●
verde - green

T ●
titanio - titanium
