## **DESIGN & FUNCTION**

- » Born on the race track, born as a winner: HALO-T-Floater concept is 2019 IDM German Superbike Champion & British Superstock 1000 Champion.
- » HALO outer ring design ensures equal heat dispersion under high thermal stress while the brake pad contact surface is cleaned evenly.
- » Outer ring thickness is 5.5mm (300mm) and features an extra cooling slot on the external perimeter.
- » The laser cut and precision grinded outer ring is fixed to a billet CNC machined aircraft aluminium carrier which is black anodized and laser marked.
- » T-Floater system ensures precise controlled full floating action which prevents front wheel drag under severe racing conditions.
- » T-Floater pin-slot construction allows high mechanical load while exhibiting minimum wear.
- » T-Floater system is lightweight due to specially designed, hard anodized aluminium floaters.
