

carbonin

CARBON FIBRE COMPONENTS SPECIALISTS

# WELCOME TO THE WORLD OF CARBONIN

Karbonin d.o.o. was founded in Slovenia by the former national motorcycle racing champion Peter Kuduz who during his race career regularly heard comments from teams and other riders talking about “badly fitting” or “low quality” motorcycle parts and the problem of finding fairings that would simply fit straight out of the box. Peter quickly recognised a niche for a new business and established the “Carbonin” brand.

Today, Carbonin is a manufacturer of premium quality carbon fibre and avio fibre fairings as well as accessories for many of the current popular sports motorcycle models. The Carbonin brand has quickly grown and is now present in more than 50 countries worldwide. The range of products has rapidly become renowned for its high quality, craftsmanship, perfect fitting, outstanding performance, lightweight technology and durability setting itself apart from its competitors. Carbonin is able to back this up with both reliable production and delivery times and being able to satisfy even the most demanding requests which require that little bit extra. Carbonin has acquired over 15 years of experience and has become a long-term partner to numerous race teams throughout the world who compete in the World Superbike, FIM Endurance, British Superbike, the Italian CIV, the German IDM and Moto America championships etc. These partnerships have played an important learning curve in the company’s development allowing Carbonin to understand the needs of the end client in the demanding and competitive world of motorsport.

The company continues to grow today and is constantly looking for new and innovative ways to improve so that it can fulfil the vision to become a world leader of the highest quality carbon fibre and avio fibre motorcycle parts for your bike.

## **The Carbonin product range currently includes:**

- Carbon fibre fairings and accessories
- Avio fibre (AF) fairings and accessories
- Fibre glass (FG) fairings and accessories
- Personalised logo and fairing decal design service.

## **Complete HRC Race Fairing**

(Upper, Lower, Single Race Seat with Under Plate and Tank Cover).

Carbon Fibre **CH13101** \*

Avio Fibre **H1310AF**\*

**Optional Extras:** Front Mudguard, Seat Foam Unit, Pre-fitted Fasteners.

\* The single race seat of the HRC fairing will require an additional aluminium sub-frame as the standard frame is not compatible. If you are ordering a complete carbon fairing, we recommend ordering the Carbonin airbox inlet tubes which are longer to suit the design of the fairing.

# MT-09 2014 GORJUPDESIGN

*DESIGNED WITH PASSION BY GORJUPDESIGN  
PRODUCED WITH EXPERTISE & FINESSE BY CARBONIN*

The Yamaha MT-09 by GorjupDesign: a classic design approach combined with the latest 3D technologies.

Designed with passion by GorjupDesign using initial sketches over flat modelling, 3D scanning and CAD modelling to 3D printing processes.

All tooling, fitting designs and final carbon fibre part production by Carbonin.

# CARBON FIBRE ACCESSORIES

Carbonin is able to offer a wide range of very high quality and excellent fitting carbon fibre parts which includes a specially custom designed fly screen, seat cover, belly pan and radiator side covers to give the Yamaha MT-09 an even more muscular, aggressive, sexier and prestigious look.

# MT-09 2014 GORJUPDESIGN

Make your bike even more unique by adding an eye-catching decal design. Choose from a range of standard designs or request your own custom design. For more details regarding this made to measure design service for your Yamaha MT-09 by GorjupDesign upgrade, contact [info@carbonin.com](mailto:info@carbonin.com).

# CUSTOMISED DECAL DESIGN

# CARBONIN ACCESSORIES

## OFFICIAL CARBONIN CLOTHING ACCESSORIES

Take your pick from our range of quality men's and ladies fashion accessories.

Whether you choose to wear a distinct Carbonin t-shirt, a soft shell windstopper or a warm and snug hoodie, you will always look part of a winning team!

Cap

Ladies T-Shirt

Windstopper Jacket

# CARBONIN DETACHABLE SEAT FOAM UNITS

## OPTIMISE YOUR SEATING POSITION

Our range of detachable Seat Foam units can be ordered from a choice of 3 options:

### BASIC

The basic unit consist of a mounting plate covered with neoprene in either 10mm or 15mm thickness.

### STANDARD

The standard unit consists of a mounting plate with neoprene and is covered with a high quality material offering a higher level of grip for the rider which can be particularly beneficial when cornering. Each standard unit is embroidered with the Carbonin logo.

### PROFESSIONAL

The Professional unit offers the highest level of customisation allowing the client to specify the use of a team logo/bike number as well as specifying other lengths and thicknesses (back support etc.) to meet the requirements of each rider.

# CARBONIN PROMOTION STANDS

## STAND OUT FROM THE CROWD!

The Carbonin fairing promotion stands are the perfect marketing tool to have setup in your company showroom or office allowing clients to see the quality of a complete fairing. With the addition of a fairing decal design, you can also show potential sponsors an example of a final end product reassuring them that their logo and company branding will be visible for all to see.

The stands are currently available for the latest models of the RSV4, S 1000 RR, ZX-10R, YZF-R1 and YZF-R6. More models are gradually being added. Please contact us for more details.

# CARBONIN PERSONALISED DECAL DESIGNS

- Offering the possibility of a personalised product which can meet the image requirements for the sponsors of a team (decal logo service).
- A choice of various standard decal designs which can be used for commercial reselling to the general public.
- A complete professional fairing decal service for either teams, individual riders or for personal use where the end result is a ready to fit fairing straight out of the box.

## CHOOSE FROM 3 OPTIONS:

### BASIC

The end user is able to choose from a choice of standard designs which can be fitted to a compatible Carbonin fairing. The end user is responsible for the decal fitting.

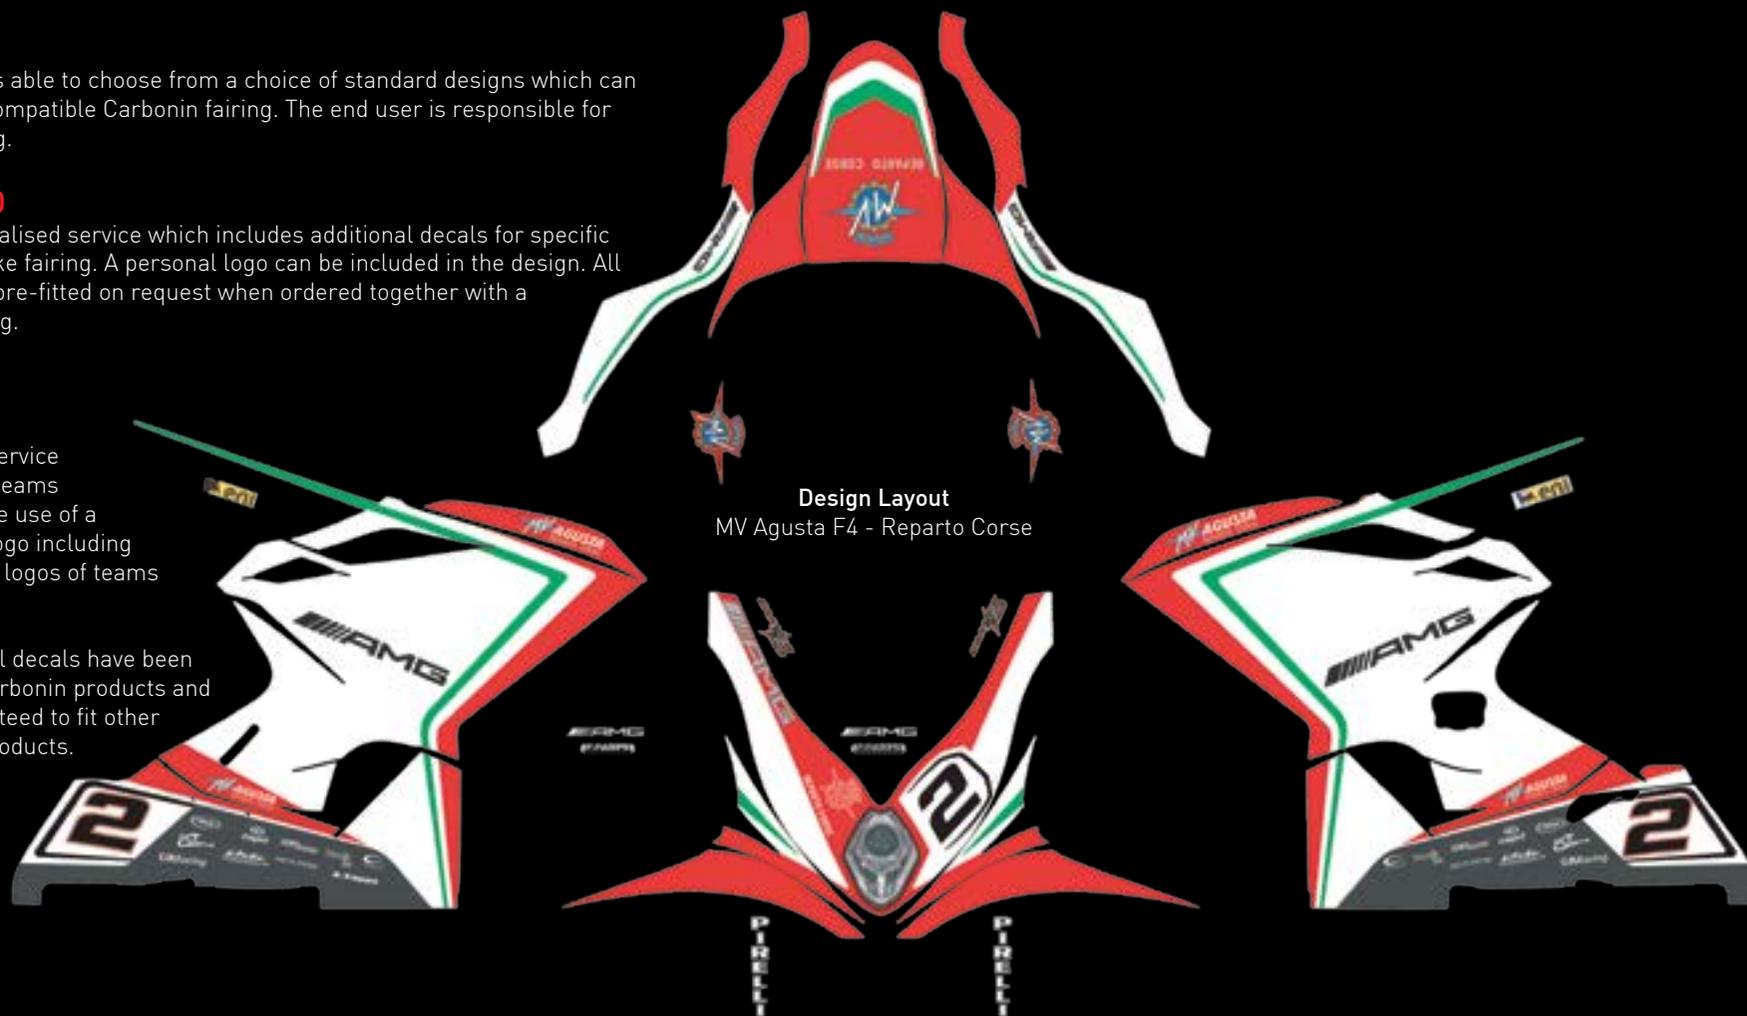

### STANDARD

A more personalised service which includes additional decals for specific areas of the bike fairing. A personal logo can be included in the design. All decals can be pre-fitted on request when ordered together with a Carbonin fairing.

### FULL

A complete personalised service aimed at race teams who require the use of a personalised logo including the details and logos of teams sponsors.

Please note: all decals have been scaled to fit Carbonin products and are not guaranteed to fit other aftermarket products.
